Other books and data

- "Creeks and Harbours of Westernport" by Richard Hawkins
- Hard copies of tides for relevant ports Jan 2-8
- Passage Plans and passage way points for each leg of the cruise

NOTE 1: The passage plans and waypoints provided are to be used as a guide. All skippers should check the details contained within the passage plan and decide if it is appropriate for them. A course and safe passing distance may then be adjusted accordingly as may a departure or arrival time.

NOTE 2: All courses provided in passage plans are True bearings. You will need to make corrections and allow for variation and deviation to obtain the compass course
